HOW MUCH WILL IT COST?

In most cases, your birth control should be **free!**

If you have concerns about payment, share them when scheduling your appointment. If you're using a parent's insurance and want your visit to be confidential, be sure to share this too.

DO I NEED A PRESCRIPTION FOR BIRTH CONTROL?

Sometimes! Hormonal birth control like the pill, patch, or ring requires a prescription. Some methods like an IUD, implant, or the shot require a clinician.

Condoms and emergency contraception are available over the counter. With Medicaid, they're also free! Ask a pharmacist for more details.
