

## HFS FPP/FPPE **QUALIFYING** Family Planning Codes

### Contraceptive Screening Questions

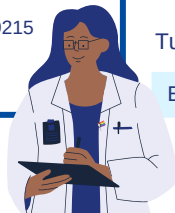

Patients of reproductive age should be routinely screened for **contraceptive needs and desires along with STI/HIV prevention education**, regardless of the reason for their medical visit de help desilo birth control in the primary care setting.

- **PATH:** Do you think you might like to have (more) children at some point? When? And how important is it to prevent pregnancy until then?
- **One Key Question:** Would you like to become pregnant within the next year?
- **Self-identified need for Contraception:** Do you want to talk about contraception or pregnancy prevention during your visit today?

Document **Z30.09** (general contraceptive screening) or **Z30.XX** (method specific code) to get credit for UDS and quality reporting measures.

### Common Encounter codes

- **Annual exam (12-64) years:**  
New: 99384-6 / Established: 99394-6
- **E/M problem visits:**  
New: 99202-99205 / Est: 99212-99215
- **Telehealth visits:** 93 (audio) / GT (video +audio)

**DID YOU KNOW?**

Z11.4: Encounter for screening HIV    Z29.81: Encounter for HIV PrEP    Z20.6: Encounter for HIV contact-PEP

- Medicaid covers 30 ext/int condoms per month via prescription. Provide refills for the year.
- Medicaid covers OTC Opill, levonorgestrel EC pill and multipack pregnancy tests via IDPH standing order or RX.
- Medicaid covers a year's supply of hormonal birth control such as the pills, patch, and ring for a SINGLE PICK at the pharmacy! This is a great option for patients who are satisfied with their method.
